Summary

Full-stack web developer recently with a certificate in full-stack web development from Rutgers University. Highly motivated problem solver effectively using my technical skills to design, build, and maintain websites according to the specifications. Self-directed professional with extensive experience in all phases of the software development life cycle, seeks to bring talent and technical expertise to a respected organization that values strong work ethic, solid critical thinking skills, and results.

Technical Skills

Front-End: HTML5, CSS, Bootstrap, JavaScript, jQuery, AJAX, React
Back-End: Node.js, Express.js, MySQL, Sequelize ORM, MongoDB, Mongoose ODM, Shell & Batch scripting
Concepts: APIs, REST, MVC, TDD, JSON
Tools: Git, Github, Heroku, VS Code

Projects

Cuisine and Recipes Logbook | https://github.com/francescortuna/cuisine-and-recipes-logbook | https://guarded-basin-90757.herokuapp.com/
- A CMS style blog site for cuisines and recipes.
- Designed and built the app in collaboration with team group members.
- Skills Used: JavaScript, BootStrap, Node.js, Express, MySQL, Sequelize ORM, APIs, MVC, Git, GitHub, and Heroku.

Random Movie Generator | https://github.com/faye3091/Movie-Randomizer | https://faye3091.github.io/Movie-Randomizer/
- Movie randomizer app that picks a movie randomly from the top 250 movies of the IMDB library.
- Designed and built the app in collaboration with team group members.
- Skills Used: JavaScript, HTML, CSS, APIs, Git, and GitHub.

Experience

Work Gap (2010 - 2022)
Took leave of absence from work to raise my family. My kids are all grown up now, and I am ready to return to the workforce. Recently attended a six months coding bootcamp to gain new technologies to enhance my career skills.

Olympic Computer Services   **2004 - December 2009**
Programmer Analyst   **Fairfield, NJ**
- Designed, developed, coded, tested, and debugged software programs, interfaces, and reports using Visual Basic to support migration from legacy system
- Gathered and analyzed system requirements from key users, translating them into technical specifications
- Reported routinely on project status and resolved technical issues

Education

Full Stack Web Developer Certificate: Rutgers Bootcamps, Newark, NJ   **February 2023**
A 24 week Intensive full stack development focussed on gaining skills in JavaScript, HTML, CSS, jQuery, JSON, Node.JS, APIs, MySQL, MongoDB, and React
Master of Science in Computer Science: Fairleigh Dickinson University, Teaneck, NJ
Bachelor of Science in Computer Science: Montclair State University, Montclair, NJ
